	LIMITING THE EXPANSE OF GOVERNMENT POWER		Your Comments
LG1	Limited Federal Powers – We support state sovereignty reserved under the Tenth Amendment and oppose mandates beyond the scope of federal authority. We support the Tenth Amendment to the U.S. Constitution. We oppose and refuse any federal mandates which infringe upon the right to self-government and rights of citizens, businesses and public entities of the State of Texas; we also support asking the Governor to direct the Texas Attorney General to pursue a other appropriate legal action that preserves Texas' sovereignty. We further support abolition of federal agencies involved in activities not originally delegated to the federal government under a strict interpretation of the Constitution. We reject the EPA defining repairs as upgrades.		Originally state legislatures picked their two senate members to represent them in Washington. As a state legislature, we need to put pressure on Senate and Congressional representatives to represent us as "conservatives" and that means standing up to intrusive institutions like the EPA.
LG2	Constitutional Citations on Legislation – We urge that all bills presented in Congress include citations to the authorizing constitutional provision, cost to implement, and impact on the family.	Support	Congress should furhter study the uninteded consequence as well as an impact study of how legislation impacts us.
LG3	If It's Good Enough For Us, It's Good Enough for Them – The Government shall not, by rule or law, exempt any of its members from the provisions of such rule or law.	Support	Further. They should have to live in and with whatever they mandate when they come home. Including their retirement and healthcare.

LG4	Law Enforcement – • We support limitation of criminal jurisdiction of federal law- enforcement agencies in accordance with Article 1, Section 8 of the United States Constitution. • We understand most crime is local, and the states, reserve law enforcement authority under the Tenth Amendment. • We oppose expansion of federal law-enforcement authority and use of military against citizens.	Support	
LG5	Preserving National Security – We believe terrorism is the greatest threat to international peace and to our safety. We urge our national leadership to protect our Constitutional rights and swiftly wage successful war on terrorists; to eliminate aid to any nation threatening us or aiding terrorists or hostile nations; to spell out consequences for terrorist activities and to publicly support other nations fighting terrorists; to reasonably use profiling to protect us; to prosecute national security breaches; and to revise laws or executive orders that erode our essential liberties.		
LG6	Patriot Act – We urge review and revision of those portions of the USA Patriot Act, and related executive and military orders and directives that erode constitutional rights and essential liberties of citizens.	Support	Including the elimination of Habeas Corpus for American Citizens. This is wrong.
LG7	Continuity of Government – We oppose appointing members of Congress to fill large vacancies, depriving our right to elect our own representatives.	Support	
LG8	Emergency War Powers – We charge the President to cancel the state of national emergency and charge Congress to repeal the War Powers Act and end our declared state of emergency.	Support	
LG9	Elimination of Executive Orders – We demand elimination of presidential authority to issue executive orders and other mandates lacking congressional approval, as well as repeal of all previous executive orders and mandates.	Support	
LG10	Inter-jurisdictional Agreements – We oppose inter-jurisdictional agreements with any state that prevent the Governor from controlling the military, police, other emergency management personnel, and State of Texas resources. We call for repeal of all such measures.	Support	
LG11	Washington D.C. – We strongly oppose making the District of Columbia a state and adding unconstitutional voting Congressional members.	Support	
LG12	Census – We oppose the Census Bureau's obtaining data beyond the number of people residing in a dwelling, and we oppose statistical sampling adjustments in the "mid-decade" census. We urge that U.S. citizens who, because of religion or conscience, are compelled to withhold their full response to any census question, be held guiltless. We support the actual counting of people and oppose any type of estimation or manipulation of data.	Support	
LG13	Preservation of Republican Form of Government – We support our republican form of government in Texas as set forth in the Texas Bill of Rights (Art. I, § 2, §29; Art II §1; and Art. XVII §2g) and oppose Initiative and Referendum. We also urge the Texas Legislature and the United States Congress to enact legislation prohibiting any jurisdiction from allowing any substitute or parallel system of Law, specifically, but not limited to, Sharia Law, to be recognized which is not in accordance with the Constitutions of Texas or of the United States of America.	Support	
LG14	Germane Contents Requirement – All language in any bill must be germane to the title of the act.	Support	to many hidden things are written in to legislation. We need transparency.

			r
	Vote Revelation Requirement – All bills passed in the U. S. House of Representatives or the U. S. Senate should require a recorded vote, and that the bill voted on not be changed after the vote. All U.S. House and U. S. Senate rules allow the passage of bills without a revelation of the recorded vote be eliminated, including but not limited to the various forms of reconciliation.	Support	
LG16	Constitutional Convention – We oppose any constitutional convention to rewrite the United States Constitution. We demand the Legislature rescind its 1977 call for such a convention. We call upon other states to rescind their votes for such a convention.	Support	
1 G 17	Affirmative Action – Inasmuch as the Civil Rights Movement argued against using race as a factor in American life, affirmative action reintroduces race as a powerful force in American life. The Republican Party of Texas believes in equal opportunity for all American citizens without regard to race or gender. To that end, we oppose affirmative action because: 1. We believe it is simply racism disguised as a social value. 2. We believe that policies that lower standards on the basis of race or gender create a disincentive to excellence and thereby encourage mediocrity. 3. We believe that rights belong to people – not groups; therefore, we reject the notion of group-rights and policies that grant preferences based on race or gender. Policies of this type apply a blanket remedy before specific acts of discrimination are proven; thus, such policies compound one injustice with another. 4. Affirmative action falsely casts those who advocate merit as racist. 5. Affirmative action casts doubt on minority achievement making such achievement as seemingly unearned. We believe that true minority advancement will come from a demand for personal responsibility, accountability and competitive excellence.	Support	
LG18	Reparations – We oppose any form of reparation based on discriminatory criteria.	Support	
LG19	Annexation – All parties in annexation proceedings should be guaranteed these referenda: Residents of an area to be annexed may vote on annexation, and voters of the jurisdiction proposing annexation must authorize the proposal.	Support	
1(-2)	Property Forfeiture – We support strengthening present restrictions on use of civil forfeiture laws and assessing penalties to reimburse injured parties for costs accrued if property is returned to its original owner.	Support	This is a viceral issue for me. My dad's property was taken from in '69. He was never made whole and never financially recovered from it.
LG21	Eminent Domain – We support limiting the definition of eminent domain to exclude seizing private property for public or private economic development or for increased tax revenues. Additionally, we support market value compensation to the property owners for all damages from all sources as a direct result of any taking. All private property owners involved in eminent domain matters should be notified of their rights under law with regard to condemnation and the condemner should be required to show the public need and necessity by petitioning a court of jurisdiction. Taking of property should result in immediate compensation of fair market value to the owner.	Support	Agreed. My opponent voted incorrectly two times during the 82nd session when it comes to Eminent Domain.
LG22	Homestead Protection – We support continuance of Texas' homestead protection.	Support	

	Environment, Property Ownership, and Natural Resources – We		
	reaffirm our belief in the constitutional concept of the		
	right to own property without governmental interference. We believe		
	that property ownership is the source of the nation's wealth; free enterprise forms the foundation of our collective wealth;		
	local stewardship of our natural resources is best;		
	sound science trumps politically correct science; groundwater is a		
	vested ownership right; the state should not abridge or		
LG23	deny our inalienable property and mineral rights; in state control of		
LGZS	state resources; in opposing nationalization of lands		
	and watersheds; in opposing conservation easements on our natural		
	resources administered by organizations		
	unaccountable to voters; in opposing vast acquisition of Texas land by government agencies to protect endangered		
	species; in allowing states to consider costs when comparing		
	emission control techniques; in election of the Texas		
	Commission on Environmental Quality chairman; and in eliminating		
	the Endangered Species Act.	Support	
	Conservation Easements – When conservation easements are placed		
LG24	on our natural resources, they should be		
	administered by organizations accountable to voters.	Support	
	Livestock and Pet Locations – We oppose a mandatory national		
LG25	animal identification system requiring registration of all		
	animals, of animal owners and their properties, including GPS coordinates and the use of RFID technology.	Support	
	Banning the Use of Red Light Cameras – We oppose the manner in	Support	
	which alleged vehicle violations are documented and		
LG26	fines levied against individuals without proof of their having been the		
	driver of the offending vehicle and we call for a ban		
	on Red Light Cameras in the State of Texas.	Support	
	Driver Licenses – We propose that every Texas driver license shall		
LG27	indicate whether the driver is a U.S. citizen. No such documentation		
	shall be issued to anyone not legally in the country.	о <i>і</i>	
	Free Speech for the Clergy – We urge change of the Internal	Support	
	Revenue Code to allow a religious organization to address issues

	requirements that religious organizations send		the left as it is on the right.
	government any personal information about their contributors.	Support	
	Government Regulation of Religious Institutions – The state should		
LG29	have no power over licensing or training of clergy. The State should		
	withdraw all imposed regulations.	Support	
	Restore Constitutional Integrity in the Legislative Process – We call		
	upon the U.S. congress to pass legislation to restore Constitutional integrity in the legislative process demanding Single Issue Legislation		
LG30	that prohibits the current practice of		
2000	inserting into otherwise unrelated legitimate legislation funding for or		
	federal regulations for special interest issues into		
	virtually every piece of legislation.	Support	
	The Rights of a Sovereign People – The Republican Party of Texas		
	supports the historic concept, established by our nations' founders, of		
LG31	limited civil government jurisdiction under the natural laws of God,		
-	and repudiates the humanistic		
	doctrine that the state is sovereign over the affairs of men, the family and the church.	Support	
	Fairness Doctrine – We oppose any attempt by Congress or any	Support	
LG32	federal agency to implement any policy comparable to		
	the "fairness doctrine" as terminated in 1987.	Support	
	Empowering Local Government Concerning Religious Meetings - the		
	Republican Party of Texas urges local government		" Govornment shall make no law

	meetings on all properties owned by the same without		
	interference.	Support	
	Real ID Act – As the Real ID Act effectively creates an		
LG34	unconstitutional and privacy-inhibiting national ID card, we hereby		
	call for its immediate repeal.	Support	
		Support	

	Employment Non-Discrimination Act (ENDA) – We oppose this act		
	through which the federal government would coerce		
LG35	religious business owners and employees to violate their own beliefs		
	and principles by affirming what they consider to be		
	sinful and sexually immoral behavior.	Support	
	REFORMING THE JUDICIAL SYSTEM		Your Comments

	by the electorate from serving as visiting judges, or acting as judges		
J2	in any capacity, until such time they are reinstated by the electorate		
	through a subsequent election.	Support	
	Jury Reform – We support the right to privacy and security of		
	prospective jurors during jury selection. Courts must show		
	relevance of questions asked of jurors and perform a balancing test		
J3	between the prospective juror's right to privacy and		
	lawyers' need to know. Either party in a criminal trial should have a right to inform jurors of their right to determine facts

	Qualified Juror Service – Jury service should be limited to registered	Cappon	
J4	voters.	Support	
J5	Administrative Justice – Citizens have a right to full participation in		
00	administrative law processes.	Support	
	Judicial Restraint – We urge Congress to adopt the Constitutional		
	Restoration Act and support the principle of judicial		
J6	restraint, which requires judges to interpret and apply rather than		
50	make the law. We support judges who strictly interpret		
	the law based on its original intent. We oppose judges who assume		
	for themselves legislative powers.	Support	
	Remedies to Activist Judiciary – We call Congress and the President		
	to use their constitutional powers to restrain activist		
	judges. We urge Congress to adopt the Judicial Conduct Act of 2005		
J7	and remove judges who abuse their authority.		
	Further, we urge Congress to withhold Supreme Court jurisdiction in		
	cases involving abortion, religious freedom, and the		
	Bill of Rights.	Support	
	Judicial Nominees – We urge Republican Senate leadership to		
J8	ensure that a record vote is taken on every judicial		
	nominee.	Support	
	State Bar Requirements – Attorneys who obtain their law degree through learning by electronic means or U.S. mail, from		
J9	an accredited school of law, should be allowed to take the Texas Bar		
	Exam.	Support	
	Information Disclosure on Judicial Candidates – The Texas State		
J10	Republican Party should foster a judicial archive site on		
010	the internet with personal history, qualifications, and past rulings		
	made by all judicial candidates.	Support	
14.4	Statutory Authority for Regulation – Defendants charged with violating		
J11	a governmental regulation should have the right to see the enabling law.	Support	
	RESTORING INTEGRITY TO OUR ELECTIONS	Support	Your Comments
	Protecting Union Member's Dues – We support legislation requiring		
RE1	labor unions to obtain consent of the union member before that		
	member's dues can be used for political purposes.	Support	
	Campaign Contributions – We support full disclosure of the amounts		
RE2	and sources of any campaign contributions to political candidates,		
	whether contributed by individuals, political action committees, or	Ourseast

RE3	Candidate Eligibility – A candidate running for office should be required to reside within the geographical boundaries of the office sought. A candidate must submit proof of qualifications for the office being sought, including proof of citizenship and in the case of a presidential candidate, an original or certified copy of a birth certificate, bearing names and signatures of parents, attendant(s), as well as date, time and location of birth for the purpose of satisfying the requirement of being a "natural born citizen".	Support	
RE4	Voter Registration – We support restoring integrity to the voter registration rolls and to reducing voter fraud. We support repeal of all Motor Voter laws; re-registering voters every four years; requiring photo ID of all registrants; proof of residency and citizenship, along with voter registration application; retention of the 30-day registration deadline; and requiring that a list of certified deaths be provided to the county clerk in order that the names of deceased voters be removed from the list of registered voters.	Support	
RE5	Electoral College – We support the Electoral College.	Support	
RE6	Voting Rights – We support equal suffrage for all citizens of voting age who are not felons. We oppose any identification of citizens by race, origin, or creed and oppose use of any such identification for purposes of creating voting districts.	Support	
RE7	Felon Voting – We affirm the Constitutional authority of state legislatures to regulate voting, including disenfranchisement of convicted felons.	Support	
RE8	Protecting Active Military Personnel's Right to Vote – We urge the Texas Secretary of State and the U.S. Attorney General to ensure that voting rights of our Armed Forces will neither	Support	
RE9	Filing Date for Primary Election – We urge changing the Election Code date of filing for the March primary from January 2 to the second Monday in January.	Support	
RE10	Fair Election Procedures – We support modifications and strengthening of election laws to assure ballot integrity and fair and security in balloting by mail; prohibition of internet voting and any electronic voting lacking a verifiable paper trail; prohibition of mobile voting; prosecution for election fraud with jail sentences; repeal of the unconstitutional "Help America Vote Act"; and assurance that each polling place has a distinctly marked and if possible separate location for Republican and Democratic primary voting. elections. Specifically, we support a federal or state government- issued photo ID at in-person voting; increased scrutiny		
RE11	Residency Requirements – We support legislation that determines residence in accordance with common-law rules, as recognized by the courts, except as otherwise provided by the Texas Election Code.	Support	
RE12	Water Districts – We urge the Legislature to allow voters the ability to recall elected officials of an irrigation district, fresh water supply district, municipal utility district, or any other special purpose district.	Support	
RE13	Campaign Finance Reform – We urge immediate repeal of the McCain-Feingold Act.	Support	
RE14	Enforcing the Platform – The Republican State Chairman and county chairs are responsible for implementing this platform by requiring party candidates to indicate their positions on platform planks before their acceptance on the ticket and to make such information available on the Party website. The SREC should seriously consider candidates' positions on the Party platform before granting support.	Support

	CELEBRATING TRADITIONAL MARRIAGE		Your Comments

TM1	Family and Defense of Marriage – We support the definition of marriage as a God–ordained, legal and moral commitment only between a natural man and a natural woman, which is the oundational unit of a healthy society, and we oppose the assault on marriage by judicial activists. We call on the President and Congress to take immediate action to defend the sanctity of marriage. We are resolute that Congress exercise authority under the United States Constitution, and pass legislation withholding jurisdiction from the Federal Courts in cases involving family law, especially any changes in the definition of marriage. We further call on Congress to pass and the state legislatures to ratify a marriage amendment declaring that marriage in the United States shall consist of and be recognized only as the union of a natural man and a natural woman. Neither the United States nor any state shall recognize or grant to any unmarried person the legal rights or status of a spouse. We oppose the recognition of and granting of benefits to people who represent themselves as domestic partners		
	without being legally married. We advocate the repeal of laws that		
	place an unfair tax burden on families. We call upon Congress to	Support	
TM2	Family Values – We affirm that this section is a response to the attacks on traditional family values. These include wellfunded, vigorous political and judicial attempts by powerful organizations and branches of the government to force acceptance, affirmation and normalization of homosexual behavior upon school children, parents, educational institutions, businesses, employees, government bodies and religious institutions and charities. These aggressive, intolerant efforts marginalize as bigots anyone who dissents.	Support

TM4	Marriage Licenses – We support legislation that would make it a felony to issue a marriage license to a same-sex couple and for any civil official to perform a marriage ceremony for such.	Support	
TM5	Homosexuality – We believe that the practice of homosexuality tears at the fabric of society, contributes to the breakdown insurance or retirement benefits. We oppose any criminal or civil penalties against those who oppose homosexuality out of faith, conviction, or belief in traditional values. of the family unit, and leads to the spread of dangerous, communicable diseases. Homosexual behavior is contrary to the fundamental, unchanging truths that have been ordained by God, recognized by our country's founders, and shared by the majority of Texans. Homosexuality must not be presented as an acceptable "alternative" lifestyle in our public education and policy, nor should "family" be redefined to include homosexual "couples." We are opposed to any granting of special legal entitlements, refuse to recognize, or grant special privileges including, but not limited to: marriage between persons of the same sex (regardless of state of origin), custody of children by homosexuals, homosexual partner

	PROTECTING INNOCENT HUMAN LIFE		Your Comments
	Party Candidates and the Platform on Protecting Innocent Human		
	Life – We implore our Party to support, financially or		
	with in-kind contributions, only those candidates who support		
PL1	protecting innocent human life. Further, we strongly		
	encourage the State Republican Executive Committee to hear and		
	recognize the longstanding and overwhelmingly		
	consistent voice of the grass roots and revise its by-laws to make this		
	action binding on our Party.	Support	
	Partial Birth Abortion – We oppose partial birth abortion. We		
PL2	recommend that Congress eliminate from all federal court		
PL2	jurisdictions all cases involving challenges to banning Partial Birth		
	Abortion.	Support	
	Right To Life – All innocent human life must be respected and		
	safeguarded from fertilization to natural death; therefore,		
	the unborn child has a fundamental individual right to life which		
	cannot be infringed. We affirm our support for a Human		
	Life Amendment to the Constitution and to make clear that the		
	Fourteenth Amendment's protection applies to unborn		
	children. We support the Life at Conception Act. We oppose the use		
	of public revenues and/or facilities for abortion or		
	abortion-related services. We support the elimination of public		
	funding for organizations that advocate or support		
	abortion. We are resolute regarding the reversal of Roe v. Wade. We		
	affirm our support for the appointment and election		
	of judges at all levels of the judiciary who respect traditional family		
	values and the sanctity of innocent human life. We		
PL3	insist that the U.S. Department of Justice needs to prosecute		
	hospitals or abortion clinics for committing induced labor		
	(live birth) abortion. We are opposed to genocide, euthanasia, and		
	assisted suicide. We oppose legislation allowing the withholding of		
	nutrition and hydration to the terminally ill or		
	handicapped. Until our final goal of total Constitutional rights for the		
	unborn child is achieved, we beseech the Texas		
	Legislature in consideration of our state's rights, to enact laws that		
	restrict and regulate abortion including:		
	1. parental and informed consent;		
	2. prohibition of abortion for gender selection;		
	3. prohibition of abortion due to the results of genetic diagnosis

PL7	Parental Consent – We call on the Legislature to require parental consent for any form of medical care to minors. We urge electoral defeat of judges who through judicial activism seek to nullify the Parental Consent Law by granting bypasses to minor girls seeking abortions. We support the addition of a legislative requirement for the reporting of judicial bypasses to parental consent on an annual basis to the Department of State Health Services and such reports shall be made available to the public. Further, we encourage the Congress to remove confidentiality mandates for minors from family planning service programs operating under Title X of the Public Health Services Act and Medicaid.	Support	
PL8	Protection of Women's Health – Because of the personal and social pain caused by abortions, we call for the protection of both women and their unborn children from pressure for unwanted abortions. We commend the Texas Legislature for the passage of the Woman's Right to Know Act, a law requiring abortion providers, prior to an abortion, to provide women full knowledge of the physical and psychological risks of abortion, the characteristics of the unborn child, and abortion alternatives. We urge the state government and the Department of State Health Services to ensure that all abortion providers are in compliance with this informed consent law and to ensure that all pregnancy centers and other entities assisting women in crisis pregnancies have equal access to the informational brochures created by the Department of State Health Services.	Support	
PL9	Alternatives to Abortion – We urge the Department of State Health Services to provide adequate quantities of The Woman's Right to Know Resource Directory to anyone that works with pregnant women.	Support	
PL10	RU 486 – We urge the FDA to rescind approval of the physically dangerous RU-486 and oppose limiting the manufacturers' and distributors' liability.	Support	
PL11	Morning After Pill – We oppose sale and use of the dangerous "Morning After Pill."	Support	
PL12	Gestational Contracts – We believe rental of a woman's womb makes child bearing a mere commodity to the highest bidder and petition the Legislature to rescind House Bill 724 of the 78th Legislature. We support the adoption of human embryos and the banning of human embryo trafficking.	Support	
PL13	Unborn Child Pain Protection – We support legislation that requires doctors, at first opportunity, to provide to a woman who is pregnant, information about the nervous system development of her unborn child and to provide pain relief for her unborn if she orders an abortion.	Support	STRONGLY SUPPORT THIS. This is an idea that I have talked about for years. Glad that it's being promoted. Will gladly do all that I can to promote this.
PL14	Unborn Victims of Violence Legislation – We urge the State to ensure that the Prenatal Protection Law is interpreted accurately and consider the unborn child as an equal victim in any crime, including domestic violence.		
PL15	Abortion Clinics – We propose legislation that holds abortion clinics to the same health regulations as other medical facilities and that subjects clinics to the same malpractice liabilities. We oppose any public funding for Planned Parenthood or other organizations/facilities that provide, advocate or promote abortions.		
PL16	Abortion Requirements for Hospitals – We propose legislation that entitles hospitals to refuse to perform abortions because government has no moral authority to require such an abortion.	Support	

			r1
PL17	Conscience Clause – We believe that doctors, nurses, pharmacists, any employees of hospitals and insurance companies, health care organizations, medical and scientific research students, and any employee should be protected by Texas law if they conscientiously object to participate in practices that conflict with their moral or religious beliefs, including but not limited to abortion, the prescription for and dispensing of drugs with abortifacient potential, human cloning, embryonic stem cell research, eugenic screenings, euthanasia, assisted suicide, and the withdrawal of nutrition and hydration. We call on the Texas Legislature to pass legislation to strengthen and clarify the current conscience clause in the Occupational Code to include the above-mentioned persons and practices. We further encourage legislation that requires hospitals and clinics to inform all health care personnel of their right to refuse to become involved in abortion or euthanasia, and their protection from prosecution and retaliation under Texas law.		
PL18	Fetal Tissue Harvesting – We support legislation prohibiting experimentation with human fetal tissue and prohibiting the use of human fetal tissue or organs for experimentation or commercial sale. Until such time that fetal tissue harvesting is illegal, any product containing fetal tissue shall be so labeled.	Support	
PL19	Stem Cell Research – We oppose any legislation that would allow for the creation and/or killing of human embryos for medical research. We encourage stem cell research using cells from umbilical cords, from adults, and from any other means which does not kill human embryos. We oppose any state funding of research that destroys/kills human embryos. We encourage the adoption of existing embryos. We call for legislation to withhold state and/or federal funding from institutions that engage in scientific research involving the killing of human embryos or human cloning.		Fetal stem cell research has been found to be considerably less effective than adult stem cell reseach. There is no need for it.
PL20	Human Cloning – Each human life, whether created naturally or through an artificial process, deserves protection. We confirm that somatic cell nuclear transfer (SCNT) is the process by which a human being is cloned, and that SCNT creates a unique human being with the same properties of a human embryo created through the union of sperm and egg. We seek a ban on human cloning for reproductive purposes (where a cloned human embryo, created through SCNT, is implanted in a womb and the human clone is birthed). We also seek a ban on research cloning (where a cloned human embryo, created through SCNT, is created, grown in the laboratory, and then destroyed when its stem cells are extracted for research purposes). Furthermore, criminal penalties should be created and experimenters prosecuted who participate in the cloning of human beings. No government or state funding should be provided for any human cloning.		
PL21	Patient Protection – We support patients' rights by calling on the state legislature to amend the Advance Directive Act to establish due process of law and ensure that a physician's decision to deny life saving treatment against the patient's will or advance directive is not due to economic or racial discrimination or discrimination based on disability. We also support the passage of legislation to amend the Advance Directive Act by requiring hospitals intending or threatening to withdraw life-sustaining treatment against the patient's wishes or their advance directive to continue all treatment and care for such patients pending transfer to another facility.

FH8	Americans with Disabilities Act – We support amendment of the Americans with Disabilities Act to exclude from its definition those persons with infectious diseases, substance addiction, learning disabilities, behavior disorders, homosexual practices and mental stress, thereby reducing abuse of the Act.	Support	
FH9	Immunizations - All adult citizens should have the legal right to conscientiously choose which vaccines are administered to themselves or their minor children without penalty for refusing a vaccine. We oppose any effort by any authority to mandate such vaccines or any medical database that would contain personal records of citizens without their consent.	Support	
	EDUCATING OUR CHILDREN – Encouraging Local Control		Your Comments
EC1	Basic Standards – We favor improvements on the quality of education and a return to the traditional basics of reading, writing, and arithmetic with sufficient discipline to ensure learning. We support standardized testing to ensure minimal standards are met.	Support	
EC2	 Bilingual Education – English is the language of commerce, therefore a successful tiered language instruction program with the following provisions is recommended: Year 1: 70% English / 30% Native language (Year 1 indicates first year of U.S. based education) Year 2: 80% English / 20% Native language Year 3: 90% English / 10% Native language Year 4 and thereafter: 100% English (No bilingual education after year 3) 	Support	
EC3	All students must pass recognized standard tests that verify each student's English ability for their grade level before advancing. No research based evidence exists that a dual language program promotes the language of commerce.	Support	
EC4	Children with Special Needs – We advocate equal educational opportunity for all students and the requirement that children with special needs be educated commensurate with their abilities.	Support	
EC5	Classroom Discipline –We recommend that local school boards and classroom teachers be given more authority to deal with disciplinary problems. We urge the Legislature, Governor, Commissioner of Education and State Board of Education to remind administrators and school boards that corporal punishment is effective and legal in Texas.	Support	
EC6	Classroom Expenditures for Staff – We support having 80% of school district payroll expenses of professional staff of a school district be full-time classroom teachers.		
EC7	College Textbooks – We support Texas' colleges and universities use of the same or substitutable textbooks for ten or more years in order to bring costs to students down and maintain some residual value for used books. We oppose restrictions on use of textbooks for multiple years, such as requiring annual access codes.		
EC8	College Tuition – We recommend three levels of college tuition: In state requiring proof of Texas legal citizenship, Out of State requiring proof of US citizenship, and, nonresident legal alien. Non-US citizens should not be eligible for state or federal grants, or loans.	Support	
EC9	Controversial Theories – Realizing that conflict and debate is a prover learning tool in classrooms, we support objective teaching and equal treatment of all sides of scientific theories, including evolution, Intelligent Design, global warming, political philosophies, and others. We believe theories of life origins and environmental theories should be taught as challengeable scientific theory subject to change as new data is produced, not scientific law. Teachers and students should be able to discuss the strengths and weaknesses of these theories openly and without fear of retribution or discrimination of any kind.		

EC10	Early Childhood Development – We believe that parents are best suited to train their children in their early development and oppose mandatory pre-school and Kindergarten. We urge Congress to repeal governmentsponsored programs that deal with early childhood development.	Support	
EC11	Educational Entitlement – Given that education is reserved to the states under the 10th Amendment to the Constitution, we encourage legislation that prohibits enrollment in free public schools of non-citizens unlawfully present in the United States. We encourage the Texas Attorney General to challenge the Federal provision of residency verification.		
EC12	Fairness in School Testing – We believe that a dual standard should be established to judge each school and respective class according to present standards, but also measure each respective student's relative level of improvement. The accountability of a school and classroom is based on the improvement of each student as well as the performance of the teacher.	Support	
EC13	Funding of Education – Educating Texans is a priority to Texas taxpayers. In order to prioritize education spending, it is necessary to maximize the percentage of school funds that are directed toward instructional purposes. We urge the Legislature to direct expenditures to academics first (books, desks, and teachers), then to non-academic activities; to provide funding for state mandates on local districts; and to not increase state taxes.	Support	
EC14	Funding via Bond Elections – We support active participation by registered voters and abhor taxing authorities' attempts to obtain approval for bonds by selective scheduling of elections' polling locations to minimize voter turnout. Hence, we support a requirement that at least 25% of registered voters must turn out and vote in order for a financial obligation to be placed on the entire citizenry.	Support	
EC15	Gambling and Education – We strongly oppose gambling or any other vice that tears at the fabric of society to fund public education.	Support	
EC16	Government Regulation of Religious Institutions – The state should have no power over the licensing of clergy or religious institutions for training clergy. The curriculum, faculty, and boards of religious institutions should be determined only by the institution. We call on the State to withdraw all imposed regulations.		
EC17	Higher Education – We reaffirm support of public and private institutions of higher learning. We advocate an equal standard for public college admission based on merit and ability. We urge the legislature to ensure equal access to grants, loans and scholarships to all Texas high school graduates, including privately educated students. All Texas students should be given acceptance priority over out-of-state or foreign students. We oppose automatic admissions rules (such as the top 10%) which are based solely on class ranking. Military dependents by definition will be Texas residents.	Support

	Knowledge-Based Education – The primary purpose of public schools is to teach critical thinking skills, reading, writing, arithmetic, phonics, history, science, and character as well as knowledge-based education, not job training. We support knowledge-based curriculum standards and tests. We support successful career and technology		
EC18	programs, but oppose mandatory career training. We oppose Outcome-Based Education (OBE) and similar programs. Further, because of an aging U.S. population and global competition, and because much of today's education teaches children to be employees or perhaps at best managers for employers, we encourage the teaching of entrepreneurial skills and investment skills.	Support	
EC19	Local Control – We support school choice and believe that quality education is best achieved by encouraging parental involvement, protecting parental rights, and maximizing local independent school district control. District superintendents and their employees should be made solely accountable to their locally elected boards. We support sensible consolidation of local school districts. We encourage local ISDs to consider carefully the advantages and disadvantages of accepting federal education money.	Support	
EC20	Multiculturalism – We support teaching the principles articulated by Republican Dr. Martin Luther King Jr., that we be judged not by the color of our skin but by the content of our character and we celebrate positive contributions to our society by members of all cultural groups without emphasizing their differences. We favor strengthening our common American identity and loyalty instead of multiculturalism that emphasizes differences among racial and ethnic groups.	Support	
EC21	No Taxpayer Paid Lobbyists – We support the prohibition of any paid public school employee or contractor to lobby the legislature or the SBOE, unless on an unpaid basis and in an unofficial capacity.	Support	
EC22	Parental Rights in Education – Parents have the inherent right to raise and educate their children, even when they are on school property. We urge the Legislature to enact penalties for violation of parental rights.	Support	
EC23	Parental School Choice – We encourage the Governor and the Texas Legislature to enact child-centered school funding options – which fund the student, not schools or districts – to allow maximum freedom of choice in public, private or parochial education for all children. As a prerequisite, we urge passage of a constitutional amendment prohibiting imposition of state regulations on private and parochial schools.		
EC24	Pledge of Allegiance in Public Schools – Students should be led daily in the Pledge of Allegiance, the Texas Pledge, the National Anthem, and be taught flag etiquette and patriotic songs to ensure that the loyal and patriotic spirit of Texan and American heritage is preserved.		
EC25	Private Education – Parents and legal guardians may choose to educate their children in private schools to include but not limited to, home school, parochial schools, without government interference, be it through definition, regulation, accreditation, licensing, or testing. We encourage competition and cooperation between public and private schools in academic and athletic extracurricular activities.	Support	
EC26	Private Education - Juvenile Daytime Curfew - We strongly oppose Juvenile Daytime Curfews.	Support	
EC27	Political Community Organizing in Texas Schools – Neither Texas public schools nor their students should be used by groups (such as ACORN community organizers), as instruments to promote political agendas, but rather to focus on history, reading, writing, mathematics, and science.	Support

	Public Higher Education Accountability - We support a system of		
	accountability in Texas Public universities. We		
EC28	support binding audits by the State Comptroller of all public		
	universities and a complete review of the tuition		
	deregulation law for the purpose of validating whether it is		
	accomplishing its stated goal.	Support	
	Religious Freedom in Public Schools – We urge school		
	administrators and officials to inform Texas school students		
	specifically of their First Amendment rights to pray and engage in		
	religious speech, individually or in groups, on school		
	property without government interference. We support and strongly		
	urge Congress to pass a Religious Freedom		
EC29	Amendment, which provides: "Neither the United States nor any State		
	shall prohibit student-sponsored prayer in

	School Surveys and Testing in Areas of Morality and Politics – Public schools should be required to obtain written		
	parental consent for student participation in any test or questionnaire		
	that surveys beliefs, feelings, or opinions in

	persuasion, or other areas of morality. Parental

	Sex Education – We recognize parental responsibility and authority		
	regarding sex education. We support policies that		
	mandate parental notification and consent before any sex education

EC35	Support for Classroom Teachers – We recognize the need to attract competent teachers; to get teachers involved in educational planning and program development; to minimize reports and paperwork; to support teacher incentives through monetary and recognition rewards; and to empower teachers to remove disruptive students.	Support	
EC36	Supporting Military Families in Education – Existing truancy laws conflict with troop deployments. Truancy laws should be amended to allow 5 day absence prior to deployments and during R&R (proof must be provided of deployment and R&R) and the students' absence will be coded in the same manner as homebound so long as school assignments are completed and turned in. Military dependents by definition will be Texas residents for education purposes.	Support	
EC37	Traditional Principles in Education – We support school subjects with emphasis on Judeo-Christian principles (including the Ten Commandments) upon which America was founded and which form the basis of America's legal, political and economic systems. We support curricula that are heavily weighted on original founding documents, including the Declaration of Independence, the US Constitution, and Founders' writings.		
	Transparency – We support legislation requiring all school districts to post their check registers online or made readily available to the public.	Support	
EC39	School Health Care – We urge legislators to prohibit reproductive health care services, including counseling, referrals, and distribution of condoms and contraception through public schools. We support the parents' right to choose, without penalty, which medications are administered to their minor children. We oppose medical clinics on school property except higher education and health care for students without parental consent.	Support	
EC40	School Nutrition – To help instill lifelong healthy eating habits, we support making only foods of nutritional value available in schools during school hours and served in appropriate serving sizes.	Support	
EC41	Teacher Retirement Funds – We urge the Texas legislature to require school districts to treat teacher retirement benefits and Social Security in a uniform fashion, and ensure vested benefits under the Social Security system are not forfeited if a second career as a teacher is undertaken.		
EC42	U.S. Department of Education – Education falls under the 10th Amendment to our United States Constitution. Given this, the Department of Education (DOE) and No Child Left Behind (NCLB) have no jurisdiction and must be repealed.	Support	
EC43	Career and Technology Education (Vocational Education) – We support reinstatement of voluntary career and technology education, including adjusting the 4x4 requirements as needed, without detracting from non-vocational program requirements.	Support

	PROTECTING CITIZENS FROM CRIME	ouppoint	Your Comments
CR1	Prison Reform – We believe our prison systems should emphasize protection of society and punishment of offenders, ever mindful of their human rights. The state should assist offenders who desire reform. Prisoners should be required to perform meaningful work. Prisoners should not have access to private information of any citizen. We support alternative methods of prison administration. We support prohibiting prisoners from initiating frivolous lawsuits. No extraordinary medical care, including organ transplants or body part replacement, should be performed on prisoners at taxpayer expense.	Support	
CR2	Sentencing Reform – We urge parole boards to administer punishment according to the intent of the sentencing courts. We also call for disclosure to juries of their rights and powers; of prior convictions of the defendant; and of the actual time likely to be served before parole. We believe punishment should be assessed in proportion to the crime and should be a deterrent. We support imprisonment for life without parole for habitual felons. Convicted criminals should make restitution to their victims. A minimum education level should be established by law for all parolees. CR6	Child Abuse – We recognize the family as a sovereign authority over which the state has no right to intervene, unless a parent or legal guardian has committed criminal abuse. Child abusers should be severely prosecuted. However, we oppose actions of social agencies to classify traditional methods of discipline as child abuse. We support enactment of a homicide-by-abuse statute that provides punishment for abusing a child to death without intent of killing. We support requiring compliance by publicly funded private agencies with laws requiring reporting of instances of any kind of abuse as a condition of receiving such funding.	Support	
CR7	Unborn Victims of Violence – We believe a person who injures or kills an unborn child should be subject to criminal and civil litigation, whether the child dies in the womb or is born alive.	Support

DP1	Texas Sovereignty – Our individual freedom and the independent sovereign authority of our State government have been obliterated by Federal statutes enacted by Congress and enforced by the Chief Executive and the Courts. What Congress has destroyed by statute can be restored by statute. Now is the ideal moment to push for new federal laws designed to restore freedom and State sovereignty. We strongly resolve that the Texas Legislature honor Texas' State Sovereignty, as reserved under the 10th Amendment, with the understanding that Texas will retain its sovereignty, freedom and independence and every power, jurisdiction and right which is not expressly delegated to the federal government by the U. S. Constitution, and oppose mandates beyond the scope of the Federal authority.	Support	
DP2	National Sovereignty – We strongly believe that the United States of America must protect and defend its national sovereignty as given in the Constitution to the people and remain free of external control or influence and be governed independently of any foreign power, especially with regard to the formation of the North American Union/Community as proposed by the Council of Foreign Relations (CFR). We call upon the President, Senators and Representatives to defend our national sovereignty in accordance with their oaths of office.		
DP3	 S.A.V.E. U.S.A. – We support seven key steps to secure America. S – Secure America's border; Northern, Southern, and ports. A – Abolish Adjustment of Status in the United States. V – Vigorously enforce immigration laws using federal, state, and local law enforcement agencies. E – Eliminate government benefits to illegal aliens. U – Unimpeded deportation process. S – Stop employment of illegal aliens. A – Amend legal immigration rates to more sustainable levels. 		
DP4	Border Security – "Order on the borders" is basic to solving complex issues of illegal immigration. All means must be deployed immediately to prevent illegal aliens, organized crime and potential terrorists from crossing the border. Secure	Support	
DP5	Civil Defense – We support a national and local civil defense system. We strongly believe that Congress should rescind all gun laws infringing upon our constitutional rights.	Support Support	
DP6	Federalization or Militarization of Police – We support having only local control over our police forces. We oppose the federalization or militarization of local police forces.	Support	
DP7	Foreign Military Bases on American Soil – We oppose relinquishing United States supremacy to any foreign powers on our soil. We support prohibition of all foreign or international military bases within the United States.	Support	
DP8	Foreign Control of US Interests – We oppose sale, transfer, management or ownership of U.S. interests by foreign or international interests. Foreign owned properties and income shall be	Support	
DP9	Homeland Security – We support the strengthening of our national intelligence gathering; enhancing inter-agency coordination of intelligence; providing critical information to local and state agencies; protecting constitutional rights of all citizens; providing adequate protection of high profile targets for terrorists; enhancing airport and port-of-entry security; using random selection and terrorist profiling in searching individuals; provide for armed guards and pilots on commercial aircraft; authorizing the Coast Guard to board and search vessels entering U.S. waters from foreign ports, and providing expert training of airline pilots for protection against terrorist attack.	Support	

DP10	National Defense – We support funding for a strong national defense; development and funding of ballistic missile and space based weapons systems maintaining our military's effective combat strength sufficient to defend our nation's borders and its strategic interests; avoiding new arms control agreements with any nation not complying with previous agreements; never deploying the military except against invasion or threat to our vital interests, which may include preemptive action; and expiration of special emergency war powers unless renewed by Congress in six-month intervals.		
DP11	Legal Immigration – One nation, one flag, one language, one loyalty; America is a country of immigrants, we should insist that any immigrant who comes here in good faith becomes an American and assimilates himself/herself to the United States. He/she shall be treated on an exact equality with everyone else. This is predicated upon the fact that the person is in every facet an American, and nothing but an American. There can be no divided allegiance. Anyone who says he is an American, but something else also, isn't American at all. We have room but for one flag, the American Flag. We have room for but one language here and that is the English language. We have room for but one sole loyalty and that is loyalty to the American people. (Teddy Roosevelt, 1907)		
DP12	Illegal Immigration – Secure the Borders Now. With growing impatience the American people in overwhelming numbers have asked our Government to secure our borders. They now demand it and we as a party agree with the American people. Illegal aliens have by definition violated U.S. law. We oppose illegal immigration, amnesty in any form leading to citizenship, or legal status for illegal immigrants. We support an end to the "catch and release" policy; criminal penalties and aggressive enforcement for those who knowingly employ illegal workers; expeditious hearings on deporting non-violent illegal immigrants; amending the U.S. constitution to suspend automatic U.S. citizenship to children born to illegal immigrants; elimination of federal and state funding to cities with "sanctuary" laws; empowering state and local law enforcement agencies with authority and resources to detain illegal immigrants; rejection of non-verifiable foreign-issued cards as valid identification; strict prosecution of any entity involved in phony identification documents; elimination of day labor work centers; elimination of laws requiring hospitals to give non-emergency care to illegal's; elimination		
DP13	Enforcement of Immigration Law – We support strict and immediate enforcement of all immigration laws.	Support	
DP14	Birthright Citizenship – We call on the Legislative, Executive and Judicial branches of these United States to clarify Section 1 of the 14th amendment to limit citizenship by birth to those born to a citizen of the United States: with no exceptions.	Support	
DP15	NASA – We support full funding for the Constellation program that will take the U.S. out of low earth orbit and back to the moon. We also support funding for the Aerospace Commission and private sector research and development of space technology. IR7	War on Terror – We support a strong policy on confronting radical Islamist terrorists in Iraq, Afghanistan and other countries around the world. We believe our military forces deployed in Iraq and Afghanistan, in particular, should not be prematurely withdrawn from the conflicts until victory has been secured and both countries are able to sustain peace with limited assistance from the United States. There should be no "time-table" applied to the withdrawal of our forces. We also support keeping Guantanamo Detention Center for terrorist detainees. Our foreign policy with Israel should reflect the special nature of this relationship through continued military and economic assistance and recognition that Jerusalem is the capital of Israel and should remain an undivided city accessible to people of all faiths. We believe that the US Embassy should be located in Jerusalem. In our diplomatic dealings with Israel, we encourage the continuation of peace talks between Israel and the Palestinians, but oppose pressuring Israel to make concessions it believes would jeopardize its security, including the trading of land for the recognition of its right to exist. We call on the U.S. to cease strong arming Israel through prior agreements with the understanding of delivering equipment to them to defend themselves in exchange for future diplomatic concessions, such as giving up land to the Palestinians on the West Bank. We support the continuation of non- recognition of terrorist nations and organizations.
